Keep in mind that this is an emerging situation, that many people here have no idea is even a 'thing'.
I'm just trying to fill in the blanks for us us, inbetween OP receiving cleared comms.

>South Korea Threatens Pyongyang With Strong Response Following Explosion at Liaison Office
"...The blast at the Liaison office comes three days after Kim Jong-un's sister, Kim Yo-jong, who is now reportedly in charge of Pyongyang's ties with Seoul, threatened to demolish the "useless" channel, if South Korea fails to stop activists from sending propaganda leaflets over the border. It follows another provocative move by Pyongyang in which the nation said it would cut off all communication with its neighbor and treat it as an enemy. Pyongyang has not been in touch with Seoul since the announcement."

You should know as a korean there are a lot of NK factions who need to work off some steam if kim family can survive in any way shape or form.
Kaesong is technically in NK and they are going to re-fortify some previously abandoned outposts to justify kim yo jong's authority anyway.
Might have some additional surprises but it is very interesting what is going on up there.

Cheong Wa Dae convenes top security meeting on N. Korea's demolition of liaison office
18:38 June 16, 2020
"Cheong Wa Dae convened an emergency meeting of top security officials Tuesday, hours after North Korea demolished the inter-Korean liaison office in its border town of Kaesong...
...
The explosion took place three days after Kim Yo-jong, the powerful sister of North Korean leader Kim Jong-un, warned that the North will demolish the "useless" communication office in protest of Seoul's "failure" to stop activists from sending anti-North Korean leaflets into the country.

Anyhow, still know you are full of shit because Challenge Coins are huge in the contractor community for people who have actually seen combat and not worked in an air condition office for Raytheon. Stolen valor faggots, including contractors, hang on the first day.

Additionally, if your intel suggests that the people, even those on the conservative end of the spectrum, would support the draft, it is grossly inaccurate.
The conservative end would likely suspect that they are the ones targeted to be drafted - and, given how they've been treated in recent years, I wouldn't blame them for thinking this way.

I've stated numerous times (in other threads) that I've never been a part of the military and that I was a contractor that worked in a nice air conditioned building with

0.00% percent of ever seeing combat other than a rough game of basketball. I did however work for years with only current and former "operators" as you faggots love to call them of various branches and groups. Numerous have seen inb4larp's posts and think they are hilarious because of how bad of a larp they are

Problem is recurrence. That social mass sits there ready to be leveraged again.
It's also great risk to our corporates and our institutions. This is a bit of a double-edged sword:
>We could blacklist them from our corporates and institutions
But, then we have an unoccupied social mass, who'll subvert and destroy shit in perpetuity.
Coming from this generation, I suspect there are only really two solutions:
>occupy them with stupid shit that gives them the illusion of winning
>somehow eliminate them from our sphere of influence entirely (i.e. incentivized deportation)
Personally, would love to hear a crafty way to achieve the latter. Their own CHAZ in Africa or some sort.

NK is the biggest LARP ever, explode some stuff, move some troops, make some weird demands to the outside world and then get big loads of food and claim to your own weird people you just won a war against the south. Same story every few years, never does anyone actually take them serious on the international playing field.
I truly have hope that our beloved Groefaz or POTUS is himself enough and breaks that cycle and actually pays attention in form of bombs to the fucking slant eye nigger over there.
This way we could start so smash the idiots, do what we do when our economy is broken, we do war. and maybe, just maybe, we have a chance to escalate the entire thing against China - now that we have reason over CoronaChan - and change the face of the world once again by force and hopefully in our favor.

Speaking of drafts:
https://summit.news/2020/06/15/chaz-occupier-suggests-rounding-up-all-the-white-people-into-work-brigades/
"CHAZ Occupier Suggests ‘Rounding Up All the White People’ into Work Brigades"
"A post that appeared on the subreddit for the Seattle ‘CHAZ’ autonomous zone that has been taken over by left-wing extremists suggests rounding up all the white people and organizing them into forced work brigades.

That’s right. Some of the very same people protesting against racism and slavery want to enslave people based on their skin color.

So progressive!

The discussion appears to be focused around identifying potential ‘white supremacists’ who are trying to infiltrate CHAZ, a 6 block area of downtown Seattle occupied by Antifa and BLM supporters after the police force fled their precinct.

The area now seems to have been renamed ‘CHOP’ after some of the occupiers wanted to send a message to anyone who resisted that their fate would resemble what happened during the French Revolution when adversaries were beheaded."

yea well I would not be here if BD didn't confirm it or other few interesting coincidences didn't line up so perfectly. Apprently the pog desk jockey believes he knows all about the folks in the field and not realizing we do have less then 100% there people doing good work. He should lay off of netflix and clancy.
I hoped for simple info and OP does deliver, more or less accurately and 100% would be more suspicious.
Too accurate to be a larp with all the coincidences you can go through them all and see the events line up, and 'vague'' turns out more precise then not. Something nobody was reporting on.
Why not give it a shot eh.

Yes, many of them
However, they could be excellent sitting at monitors, gathering data, organizing things.
The ones as good as the Israeli's seem to be...well.
•More than anything, there's been social and cultural upheaval.
Whatever we do, each individual, no matter the gender, should be placed somewhere where -having been fully vetted- they won't be bad assets.
We'll figure it out. Testing will help tremendously. Many have street smarts, and are definitely not classically educated.
Oh, boy. But, it's the only way to break their programming.

im playing devil's advocate here. the building was demolished, but was it was thermite placed by a rogue agent, a jet successfully hijacked by a rogue agent who just recently graduated from a flight academy down south, or an intentionally guided missile launched by a glass of hennessy, when the exposed launch toggle was mistaken for a coaster

Flaming, aerial-light, with angry voice, lightning thro' lucid clouds with horrid noise.

Come, and benevolent these rites attend, and grant my days a peaceful, blessed end.
